**Subject:** St. Louis Post Dispatch: Nuclear critic urges removal of radioactive waste at West Lake Landfill

**St. Louis Post-Dispatch - Nuclear critic urges removal of radioactive waste at West Lake Landfill - 11/21/13** - The West Lake Landfill is, in reality, an unregulated radioactive waste dump that should be cleaned up under the same federal program as similar St. Louis-area sites contaminated with World War II-era uranium processing residues, a nuclear industry critic said in a report released today. The 17-page report isn't based on new data. Instead, it draws from dozens of existing studies that go back more than half a century.
